Let´s connect for green energy in Africa
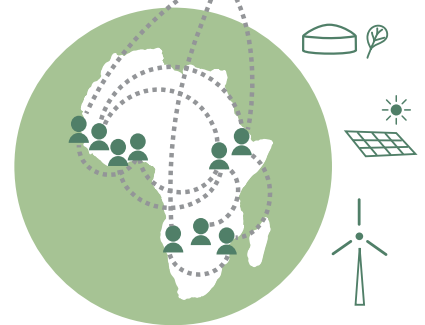

## Networking – Sharing Information and Knowledge is the Key to Success

The Green People´s Energy for Africa Alumni Network is a platform that supports African alumni to develop their green energy ideas in their home countries. The ANSAP – Alumni Network and Support for African Professionals implemented by RENAC Energy and Climate GmbH offers a connection platform for for people, ideas and knowledge in green energy and the chance to participate in Green Energy Trainings to realise sustainability plans in Africa. Participants must have completed a German training in Renewable Energies in order to become a member of the Alumni-Network.

It is part of the Initiative "Green People´s Energy for Africa" from the German Federal Ministry for Economic Cooperation and Development which focuses on supporting the development of decentralized energy solutions in 9 Sub-Saharan countries in Africa: Benin, Côte d'Ivoire, Ethiopia, Ghana, Mozambique, Namibia, Senegal, Uganda and Zambia and gives the opportunity to African citizens to connect for green energy.

Mentoring

In this Alumni Portal you get to be part of the Alumni-Network database and get exposure to players of the green energy industry in your region.
You can share information with fellow Alumni.

You have access to an exclusive virtual exchange platform to share knowledge with your peers. Participate in virtual Alumni conferences and have the opportunity to get scholarships to join the RENAC Online Academy.

You will get the opportunity to access a mentoring programme to receive assistance to develop your business ideas in Green Energy, participate in pitching events and showcase your projects to experts and possible business partners.

COME AND JOIN OUR ALUMNI NETWORK!
